Dear Colleagues and Guests,

Welcome to Çukurova University. We are very happy to host you in Adana at our university and also we are so proud to be able to organize one of the JRR course here at our home.

I would like to thank you all for attending to Justice Rapid Response course with my deepest respects.

The most important value for all human kind and for all the nations is “Justice” as it always has been. In the world today, it became more important than ever. Today the world needs the Justice more but also it needs it more rapidly and as an immediate respond to all cases. The Forensic Scientists and researchers as well as the Judiciary Disciplines are the ones that we trust and expect the Justice from.

Our University has always been a pioneer in scientific progresses and we are so very proud to be able to carry a week length JRR course here in our University. We hope that this will be a very good start to brighten the region and will continue to enlighten the scientists and lawyers for many years.

My cordial very best wishes to the course members and also deep appreciation to the course lecturers for their volunteer support and efforts.
